BETHEL, MAINE, THURSDAY, JANUARY 19, 1928.

4 Cents Per Copy—\$2.00 Per Year

BETHEL AND VICINITY

E. C. Park was in Portland, Thurs-
day.

F. Perley Flint was in Wilson's
Mills, Monday.

Miss L. M. Stearns was in South
Paris, Thursday.

Elmer Bennett spent the week end
in Tewksbury, Mass.

Howard Gunther is able to be about
and do some light work.

L. C. Poore and son, Cecil, of Rum-
ford were in town Saturday.

Miss Rose Harvey was the guest of
friends in Gorham, Saturday.

Mary Thurston spent Saturday with
her classmate, Hildred Bartlett.

Mrs. Fred Hamlin spent last week
in Berlin, the guest of relatives.

Murray Thurston, son of P. C. Thur-
ston, is ill at his home in Mayville.

John Coddige, who had a serious at-
tack of heart trouble, is much improved.

A. D. Forbes was the guest of Mr.
and Mrs. D. M. Forbes over the week
end.

Bertha Tyler of Bryant's Pond is
working in the home of S. S. Green-
leaf.

Arthur Jackson assisted E. E. Ben-
nett harvesting ice a few days last
week.

Mr. and Mrs. Kenneth Wight are re-
joicing over the birth of a son, Friday,
the 12th.

Mrs. Mae Taylor was called to Shel-
burne, Saturday, by the death of her
mother.

Charles Capen of Middle Intervale
visited his sister, Mrs. Fannie Carter,
recently.

Mrs. Archie Verville has returned
from a visit with relatives and friends
in Montreal, P. Q.

Mrs. Gale of Fryeburg is with her
daughter, Catherine Gale, who is ill at
the home of Mr. and Mrs. E. P. Blaisie.

Edwin York, who has employment
with M. J. Marshall, was injured one
day recently. He is suffering with a
broken rib.

Robert French of Turner was a re-
cent visitor of his grandmother, Mrs.
Anna French, and aunt, Mrs. D. B.
Smith, and family.

Mrs. E. F. Peterkin received word
of the death of her sister-in-law, Mrs.
Harris McKee of Shelburne, N. H.,
which occurred Sunday.

F. P. Flint, F. L. Edwards, E. P.
Lyons, I. L. Carver, C. W. Hall and J.
P. Butts attended the Shriner's meet-
ing at Lewiston, Friday.

Harold A. Lurvey of Bryant's Pond
is the manager of Sam's Fruit Store,
No. 2, which opens in the new Naimen
building Thursday of this week.

Miss Alice Capen left Tuesday for
New York, where she will join Dr. W.
B. Chapman and family, who will leave
for Florida soon for several weeks stay.

Gilman Chapman of Berlin, N. H.,
spent Saturday afternoon with his
father and sister, W. L. Chapman and
Mrs. Gertrude Milken, returning on
the evening train.

Eyes examined, glasses furnished by
F. L. Greenleaf, Optometrist, over
Roose's store, Thursday, Friday and
Saturday of each week. Evening ap-
pointments may be made.

Douglas Chisham and Miss Eva Houten
were married Wednesday evening in the
presence of a few invited friends by
Rev. W. B. Patterson, pastor of the
Methodist Church. They will remain
at the home of Mr. Verman's aunt, Mrs.
Barker, for the present.

Mr. Abram Lodge, I. L. F. and
Samuel Hobbins, lodge and hold a joint
installation Friday evening, Jan. 23,
at I. O. O. F. Hall. Odd Fellows and
their families and Hobbins and their
families and each member has the
privilege of having one guest.

Mrs. A. P. Chapman returned to her
home the first of the week from Bethel,
Maine, where she has been for several
days assisting in the care of her father,
Alfred Hobbins, who passed away
Friday afternoon. Relatives and friends
extend their sympathy to Mrs. Chap-
man and family.

Mrs. Sherman, Greenleaf received
word of the death of her cousin, Mrs.
Catherine Mason, Saturday morning.
Miss Mason was at the head of the
baby department in a children's home
in Fall River, Mass. She will be remem-
bered by many in town as she spent
some time with Mrs. Greenleaf last
summer.

NINE HOMES IN RUMFORD FIRE

The house of Joseph Peluchi, Smith
Crossing, about two miles from Rum-
ford, burned Sunday afternoon. Fire-
men were handicapped by lack of water.
Chemicals proved insufficient.

One truck, a combination ran out of
gasoline a few hundred feet from the
fire station. It was held up until gas
was secured from a nearby garage.

Mr. and Mrs. Peluchi and seven chil-
dren are homeless as a result of the
fire. The house was covered with \$3,200
insurance. The furniture was saved
by volunteers.

RUMFORD POINT

The Rumford fire company of this
place served a supper at the school-
house Friday evening to a large crowd
and a goodly sum was realized.

Mrs. Caroline Blanchard and Alice
Bryant spent last week in Portland.

The people in this section have har-
vested their ice.

Rev. Mr. Brown preaches at the Kim-
ball schoolhouse every Sabbath at 11:00
o'clock.

CHANDLER HILL

Mrs. Darius M. Hill has returned to
the home of her sister in Ogunquit,
Maine, after spending several weeks
with friends and relatives.

Mr. and Mrs. George Boulter of Ben-
nettville are now employed by V. Bean.
Mr. Boulter is sawing birch for O.
Pingree and Mrs. Boulter is assisting
Mrs. Bean with the housework.

Robert Kirk has returned to his
work for the Rumford Falls Light &
Water Co., after spending a couple of
weeks at home.

Perley Rainey, who has been driving
team for V. Bean, has returned to his
home on the Rabbit Road.

W. B. Cummings of Albany was in
town Tuesday.

Robert Clough is cutting ice for Mrs.
J. P. Skilling.

Wilbur Bean was in Rumford on busi-
ness, Saturday.

Mrs. Harold Fish was called to Bath,
Thursday evening.

Mrs. Edna Wheeler is assisting in the
library at present.

Mr. and Mrs. Herbert Winslow were
in Hanover, Sunday.

Chris E. Abbott of Lincoln was in
town Thursday and Friday.

Some of the steel for the new An-
drosoggin bridge has arrived.

Miss Vivian Eagle is spending a few
days with Mrs. John Barbark.

Mrs. S. H. Jodrey has been confined
to the house with a bad cold.

Miss Gertrude French spent the week
end with relatives at Rumford.

Miss Amy Wheeler has been suffer-
ing with an ailment on her face.

George Haggard, Selden Grover and
Harry Churchill are harvesting their
ice.

Mrs. Laura Roberts of China, Me.,
is the guest of her sister, Mrs. Fannie
Carter.

Laurence Bartlett was a week end
guest of Mrs. Estella Bean and family
at Albany.

Mrs. John Barback, who has been
confined to her home for several weeks,
is now able to be out.

Philip Daye and Herbert Winslow
motored to Bath, Friday, returning
home in the evening. While there they
visited Mr. Daye's father who lives in
Acron, Maine.

The day on Mill Brook for the new
skiing track has been completed. The
track area is covered with drifted
snow and will still require considerable
work before it can be of use to skaters.

The second heavy snow storm of the
season arrived Monday night accom-
panied by a high wind. The snow-
drifts and plow and Hobbins Bros.,
Co.'s plow and plow have been at
work on the roads, while Hobbins' plow
has kept the village streets in good
shape.

Friends of Golden B. Foster and wife
of Sandy River Valley and Everett,
Mass., will be glad to hear that Mr.
Foster writes that he seems to be hold-
ing his own if not gaining, and Mrs.
Foster is much improved from a recent
illness. The old Valley never loses its
charm for her wandering children, and
Mr. Foster enjoys his summers at the
old home.

Additional Locals on Page 4

CHURCH ACTIVITIES

CONGREGATIONAL CHURCH

L. A. Edwards, Pastor.

Sunday, Jan. 22, 1928;
10:30. Morning worship. The pas-
tor will preach the third of the series
on the Human Qualities of the Man
Christ Jesus: the sub title being, "The
Originality of Jesus."

Were the sayings of Jesus true be-
cause he uttered them, or did he utter
them because they were true?

There are thirteen notes in the Chro-
matic Scale. Being them into a cer-
tain relation and we have an Octave
or the latest Jazz.

Jesus took the beautiful things of
Heaven and Earth and fashioned them
into a wondrous Music that he called
Life; and the centuries have but en-
hanced its beauty.

In these discourses we are making
honest effort to portray Jesus as he
really was, when here in the flesh. Not
all may agree with our interpretation
of this wondrous character, but if by
ray word of the speaker any are led to
study His life we shall regard our ef-
forts as not having been in vain.

Church School at 12 o'clock.
Comrades of the May at 7 o'clock.
Adjourned annual meeting in Garland
Chapel Monday evening at 7:30.

The Ladies' Club will meet on Thurs-
day afternoon with Mrs. Charles Valen-
tine.

METHODIST CHURCH

Our Church School meets at 9:45.
The letter "G" will help you re-
member the four words which form the
basis of our sermon Sunday morning
10:45.

Small words, yet big—a paradox.
They are, each, words of exhortation,
urging us on, on and still on.

Epworth League meets at 6:30 P. M.
Topic, "The Christ of the Indian
Road." Leader, P. C. Lapham.

Our 7:30 service will be a service of
song, "Come and help us in this service."
Class meeting Tuesday evening 7:30.

UNIVERSALIST CHURCH

Sunday School will be held at 9:30
A. M.

CHRISTIAN SCIENCE SOCIETY

Chapman Street

Services Sunday morning at 10:45
Subject of the lesson sermon, Truth.
Sunday School at 10 o'clock.
Wednesday testimonial meeting at
7:30 P. M.

GROVER HILL

Quite a fall of snow Monday night,
followed by a heavy wind Tuesday.

S. S. Greenleaf made a professional
call at M. F. Tyler's last Saturday and
again Tuesday morning. One of Mr.
Tyler's team horses is sick with indig-
estion.

Mrs. Rosa Swan from Bethel was the
guest of her sister, Mrs. C. L. Whit-
man, the first of the week.

George Bennett from West Bethel
was at M. F. Tyler's Sunday.

Merle Swan, who has employment at
West Bethel, was at Clyde Whitman's
Sunday, to visit his little daughter,
Jesse.

Mrs. Bertha Munds has just com-
pleted a large hooked rug, which she sold
at once. There seems to be a great de-
mand for her rugs.

Mr. and Mrs. G. Norman Sankton
from Bethel called at Frank Abbott's
one day last week.

Miss Rachel Maphery from Bethel
spent the day with Mrs. Helen Abbott
at week.

Mr. and Mrs. Burton Abbott from
West Bethel were Sunday visitors of
their parents, Mr. and Mrs. Frank At-
wood, Maine.

WEST GREENWOOD

Master Isaac came to this country
Friday.

John Kenough of Six Paris called on
his parents last week.

Tom Kenough, Jr., has gone to Sum-
ner to work with his father, John.
Morris Chase helped T. B. Park one
day last week.

Enos Cole has gone to work in the
mill at Locke's Mills.

Guerrille Harrington returned to New
York, Monday, after spending three
weeks at home.

John Deegan is hauling wood with
this truck to Bethel.

Mrs. Vashaw was in this vicinity one
day recently.

Mr. Cummings spent Sunday with his
father.

Mr. and Mrs. Andrews of Albany
called at Mrs. Dearden's Sunday.

Leonard Armstrong spent Sunday at
W. A. Holt's.

Gould Academy Notes

Don't forget the Girl Reserve enter-
tainment which is to be held at the
William Bingham Gymnasium this
Thursday night.

There is to be a public debate at the
school building next Friday afternoon.
The question is, Resolved: That a stu-
dent obtaining an average of ninety per
cent or over in a course should be ex-
cused from examinations in that course.

The members of the tegas are Marg-
aret Carter, Rachel Beane, Dorothy
Kohly, and Homer Gregory.

Members of the two lower classes met
last week and discussed plans for the
formation of another debating group,
which will have for its purpose infor-
mal instruction in the elements of ar-
gument. From time to time, teams from
this group will discuss questions of lo-
cal interest. Considerable interest was
shown and a number of questions sug-
gested.

At the regular meeting of the Y. M.
C. A. last Tuesday night, a general
committee was appointed to make
plans for the annual winter carnival.
The members of this committee are Mr.
Hessier, Earle Bryant (chairman),
Homer Gregory, and Emil Johnson.

BASKETBALL

Juniors vs. Freshmen

The Juniors and Freshmen staged an
exciting game at William Bingham
Gymnasium, January 13. With a handi-
cap of ten points, at the end of the
half the Freshmen led by a score of
17-6. At the end of the third quarter
they led 17-10. In the last quarter the
Juniors opened fire. Myers started with
three "clean swishes." At the final
whistle the score was 29-17 in favor of
the Juniors.

	G	F	T
Glover, Jr.	6	1	13
Myers, Jr.	4	0	8
Rames, Jr.	0	0	0
Gregory, Jr.	2	0	4
Myers, Jr.	1	0	2
Burnham, Jr.	0	0	0
Hancock, Jr.	1	0	2

Bartlett, Jr.	1	0	2
Vetpusky, Jr.	0	0	0
Hinckley, Jr.	0	1	1
Littlefield, Jr.	1	0	2
Handicap	3	1	7
Total	17		

The basketball game between a
picked team from the Academy girls
and an alumni team, Tuesday afternoon,
resulted in a score of 29-13 in favor of
the alumni. It was a snappy game from
start to finish.

Alumni
F. Chapman, Jr. H. Elsie Davis
D. Kelly, Jr. D. Kelly Goodnow
I. Foster, Jr. C. Faye Sanborn
H. Mosher, Jr. J. Doris Lord
M. Kinney, Jr. J. Thelma Bennett
E. Morse, Jr. J. Erna Marshall
Referee, Mrs. Swan.

NORTHWEST BETHEL

Mr. and Mrs. W. A. Skilling and
three children spent Sunday with Mr.
and Mrs. Fred Hobbins.

Mrs. Hobbins is with his daughter,
Mrs. Frank Hobbins.

Fred and Ava Hobbins have finish-
ed cutting wood for A. F. Herrick.

Philip Brown has been sick with a
cold.

Almon Gaudy was at Fred Paul
idge's, Sunday.

Mrs. Anna J. Gaudy and Mrs. E. J.
Swaine with the work.

EAST BETHEL

The Bethel school went through
East Bethel, Monday.

A telephone meeting was held Mon-
day evening, Jan. 16 at the home of
O. B. Parvill.

Many cords of pulp wood are being
hauled on the river bank.

Misses Skilling and Valentine,
teachers, were recent evening guests of
Mr. and Mrs. Preston Kimball and fam-
ily.

Mr. and Mrs. J. H. Sana have re-
turned to their home here.

Mr. and Mrs. C. E. Bean of Rumford
were week end guests of Mrs. Carrie
Bartlett.

Mr. and Mrs. B. J. Russell and son,
Cedric, of Rumford were Sunday guests
of Mr. and Mrs. Porter Farwell and
called on other friends.

Mrs. P. B. Howe and Mrs. Etta Har-
lott recently enjoyed a sleigh ride and
were dinner guests of Mr. and Mrs. J.
H. Bates, Rumford Corner, Me.

LADIES' CLUB ENTERTAINED

On the afternoon of Jan. 12, Mrs.
Harriet Gilley and Mrs. W. J. Upson
entertained the Ladies' Club at Bethel
luncheon.

Thirty-nine members and friends re-
sponded to the invitation and spent an
unusually pleasant afternoon.

Mrs. Edward P. Lyon and Mrs. Har-
ry A. Lyon sang two beautiful duets.

Mrs. Alphonse Van Den Kerkhoven
gave a prize reading entitled, "The
House by the Side of the Road," and
Mrs. Hecy Hastings gave the well
known and loved poem of the same title
by Sam Walter Foss.

Ten and eleven with assorted cake
and ice cream were served.

HUTCHINSON—ANNIS

Hollis Hutchinson of West Bethel and
Miss Grace Annis of East Livermore
were married Saturday, Jan. 13,
at Livermore Falls by the Rev. E. Har-
ry Atkinson. The double ring service
was used.

The bride is the daughter of Mr. and
Mrs. Charles Annis of East Livermore,
out has spent most of the past two
years in Bethel.

Mr. Hutchinson is the son of Mr. and
Mrs. Archie J. Hutchinson and is em-
ployed by the Merrill, Adams Com-
pany.

They will reside in West Bethel.

NORTH PARIS

The Women's Division of the Farm
Bureau will meet at Community Hall,
Thursday, for an all day meeting. Buy-
manship will be the subject. The chair-
man, Mrs. Morris Ellingwood, will be
the leader. Mrs. William Littlefield and
Mrs. S. I. Wheeler are the dinner com-
mittee.

Howard McAllister, Jr., who has been
very ill, threatened with pneumonia, is
more comfortable at this writing. Mas-
ter Howard is just recovering from in-
fantile paralysis and was able to sit up
a few minutes each day.

Mr. and Mrs. Archie McDonald and
family have moved into Sumner, near
what is called Twin Bridges, where he
has employment.

Robert and Wilbur Chamberlain have
gone to Trap Corner to stay this win-
ter with their grandparents, Mr. and
Mrs. Fred Beck. They will attend school
at West Paris.

Correction: It should have been Mrs.
Ruth Barnett instead of Bryant of So.
Paris is substituting for Miss Estella
Thurston during her illness.

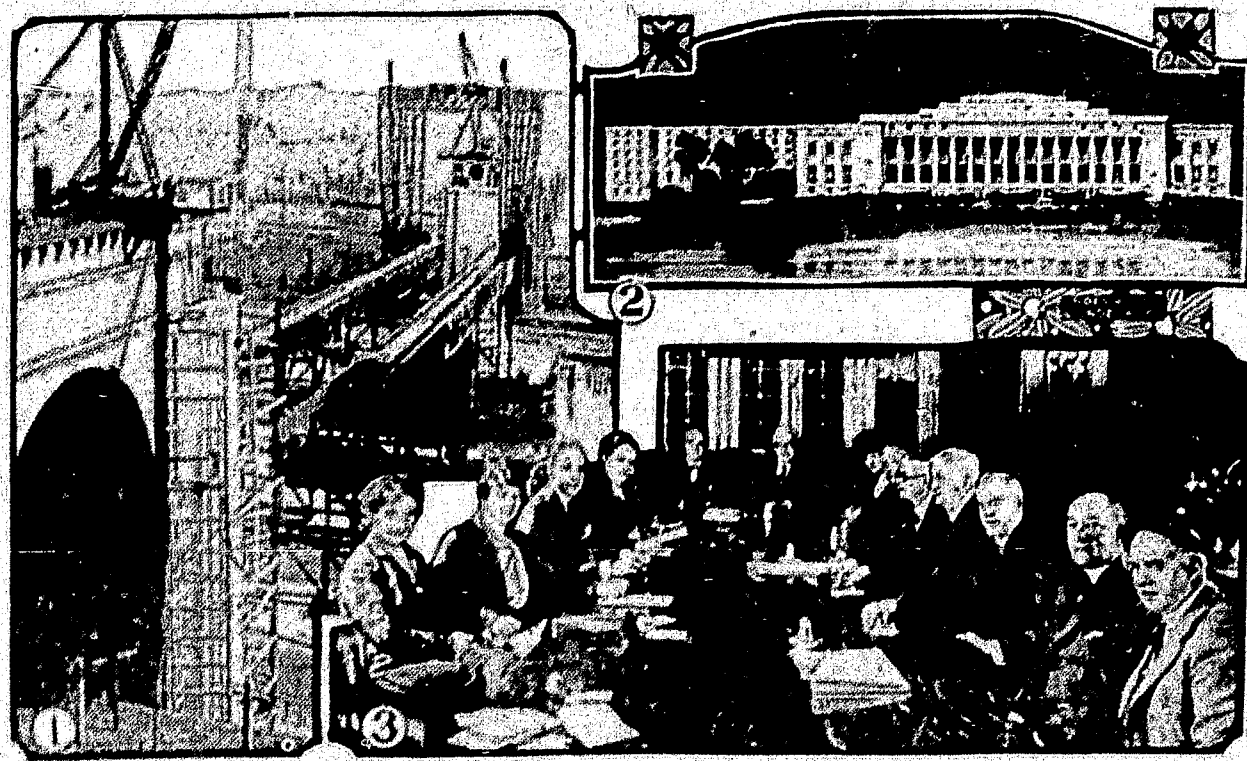

Many are harvesting their ice from
Moose Pond. L. J. Trask, A. B. Ab-
bott, Mark Hanta, Dana Grover, S. E.
Collins, Nelson Cole, and Charles Childs
finished before the storm of Tuesday.

Mrs. Daniel VanCuren was home over
the week end from her work in Nor-
way.

William and John Gibbs are cutting
wood for Long Abbott.

Both are soon to enter Heben
Sanatorium for treatment.

Mr. and Mrs. Lorenzo Cole of West
Paris visited Mr. and Mrs. S.

1-Rebuilding the famous High bridge over the Harlem river in New York. 2-Design selected for the future home of the League of Nations, to stand on the shore of Lake Geneva, Switzerland. 3-William M. Butler, chairman of Republican national committee, and his aids meeting in Kansas City to arrange for the national convention.

NEWS REVIEW OF CURRENT EVENTS

President Goes to Cuba and American Marines Bomb Nicaraguans.

By EDWARD W. PICKARD

President Coolidge left Washington Friday by train for Key West, Fla., where he boarded the battleship Texas and steamed across to Havana, Cuba, thus leaving the United States for the first time in his incumbency of the Presidential office. With him were Mrs. Coolidge and the distinguished gentlemen comprising the Pan-American delegation to the Pan-American congress. It was to participate in the opening of that assembly that Mr. Coolidge made the journey, and his stay on the island was to be brief.

There were unmistakable signs that the leadership of the United States in the affairs of the continent was to be centered by the delegations of some of the Latin American nations, this being precipitated by resentment against American intervention in Nicaragua. In order that the President and his delegation might not be embarrassed by criticism at home, the senate committee on foreign relations decided to postpone its investigation of the Nicaraguan situation until after his return. Such an inquiry was called for by a resolution introduced by Senator Wheeler of Montana and a majority of the committee seemed to favor it but deferred action for the reason stated. Protests against our course in Nicaragua have been rather frequent, the latest being in the form of a telegram to President Coolidge from the editors of papers in Bogota, Colombia.

Meanwhile American marines humiliated 1000 were being hurried down to Nicaragua from both the Atlantic and the Pacific stations and General Lejeune, commander of the corps, also went down there to look over the situation. The announced intention to break up the rebel band led by General Sanchez and give the country complete peace has not been altered. The bandits, who are said to be inspired by a former German officer named Muller, are active and enterprising and have made several attempts to ambush detachments of marines. In one instance, at Bonaville, a number of native troops deserted their allies and helped the rebels in an attack on a patrol commanded by Capt. Paul W. Jones of the marines. Outraged, Jones retreated to Villa Nueva, obtained reinforcements and returned to Bonaville, but was again driven off. A larger body of troops was recalled from there, and the bandits and deserters had fled to the mountains. Lieut. P. C. Smith, another officer, discovered about 300 rebels hiding in another mountain and a column of marines which was marching from Quilich to Jarama with tanks and machine guns, the headquarters of the band to resist, killing fourteen and wounding others. Jones' detachment from another source three miles north of Quilich killed also rebels, breaking up a concentration.

SENATOR DAVID A. REEDER announced that he has been investigating the alleged Mexican documents that were published in the Hearst papers made a partial report to which were these findings:

1. There is not a scintilla of evidence that any United States senator has accepted or accepted, or was offered directly or indirectly, any money or other valuable thing by any officer or representative of the government of Mexico.

2. The copyrighted document showing that REEDER was withdrawn from the Mexican treasury and sent to the Mexican naval arsenal in New York to be put in United States custody, is not genuine but is spurious and fraudulent, and, so far as it purports to be signed by the President of Mexico or the secretary of the treasury of Mexico, it is forged.

The committee will not yet have been able to determine the identity of the manufacturer of the spurious documents. Senator Reed told the sen-

ate he believed Miguel Avila, who obtained the papers for Hearst, and John Page, who acted for the publisher, had testified falsely, and he criticized Hearst severely.

COLONEL LENDERBORN'S successful flights are becoming almost monotonous, and some one has said that if he did not land safely somewhere, that would be news. However, his tour still makes interesting reading and the Latin-Americans do not weary of receiving him enthusiastically and heaping honors upon him. Monday of last week the lone eagle dropped down on the flying field at Panama that was built and named for him, after a four hours' flight from Costa Rica. The huge crowd almost mobbed him, and President Chari received him warmly. For two days there were fetes, banquets, reviews and other functions, and Lenderborn took President Chari and Vice President Duque up in an army observation plane. Then the flyer had several days, busy but more restful, in the Canal Zone. He announced that he would fly to Venezuela next, alighting at the army air field near Maracaibo, where President Gomez lives. Then he planned to proceed to St. Thomas, one of the Virgin Islands, next to San Juan, Porto Rico, where there is an excellent army field; thence to Santo Domingo, where there also is a good marine-constructed field; then to Port au Prince, Haiti, which has the best field in the Caribbean, and then to Havana.

PROBABLY Pope Pius XI will be known in history as the author of the encyclical rejecting movements favoring the unity of the Christian churches regardless of form or creed. It was declared in Rome to be the most important Vatican document issued since the World war, and there can be no doubt that its effect will be great and widespread. It was considered especially as a rejection of the efforts of the Anglo-Catholics of the Church of England to bring about an entente with the Catholic church, but its terms are general.

The pope declares the sole religion was revealed to the Catholic church, which has maintained itself and identified throughout the centuries. Of religious conferences and congresses for unity to which all are invited the encyclical says: "Such attempts cannot obtain the approval of Catholics. These movements are founded on the false theory presupposing that all religions are good and meritorious; therefore all, although in a different way, manifest and signify equally that sentiment, inherent in us, to be carried to God for reverent recognition of His dominion."

"Followers of such a theory not alone deceive and err, but repudiate true religion, distorting concepts, tending little by little to materialism and atheism, whence clearly they adhere to such theories detach themselves from the religion revealed by God. Under the appearance of good they are easily hide deception when they try to promote the unity of all religions."

THOMAS HARDY, dean of English literature and the last of the great Victorian writers, died Wednesday at his home near Dorchester at the age of eighty-seven, after a month's illness. Of late years the famous novelist of Wessex had devoted himself to writing poetry, but whether any of these poems will be put into print is doubtful.

Among other deaths of the week were those of Louis F. Post of Washington, author, editor and advocate of George's single tax theories; Marvin Hacht of Chicago, pioneer railroad builder and executive; Sarg A. Conley of New York, labor leader, and Dr. Julius Grinker of Chicago, eminent neurologist.

ALBERT D. LASKER, former chairman of the United States shipping board, and Mrs. Lasker have given \$1,000,000 to the University of Chicago for medical research directed toward establishing the nature, causes, prevention and cure of degenerative diseases. In other words, the aim is to increase the life expectancy of men and women who have reached middle age.

DR. KING in the electric chair in King Sing brought to a close the tragedy of Ruth Snyder and Harry Gold Gray, hard-core of the woman's husband. Resourceful lawyers tried up to the last minute to prevent the execution, but all their efforts were futile.

SURPRISINGLY the Democratic national committee in session in Washington selected Houston, Texas,

for the national convention and set the opening date for June 26. The contest was between Houston and San Francisco and the fifth and deciding ballot was 51 to 48 in favor of the Texas city. Houston offered \$200,000 for the convention and promised to build a new hall if the city, auditorium, which seats 5,000, were considered too small. The place has hotel accommodations for 10,000 to 12,000 persons.

The Jackson day banquet was attended by most of the party leaders and harmony prevailed, at least on the surface. Gov. Al Smith of New York was not present, but a letter from him was read and evoked long and loud applause. To observers in Washington it begins to look as if Smith might get the Democratic nomination almost without a contest.

On the Republican side it was announced that Frank O. Lowden would enter the North Dakota Presidential primary to be held March 20, the first to be held in the Middle West. In the East the Hoover boom was growing steadily and his cause was helped by the fact that Thomas A. Edison and Henry Ford both declared for him. Senator Jim Watson of Indiana said he had not yet decided whether to be a contender, but that if he entered the race it would be in earnest and not as a stalking horse.

REORGANIZATION of the Chicago, Milwaukee & St. Paul railroad having been approved by the interstate commerce commission, Federal Judge Wilkerson in Chicago issued orders for the receiver to transfer the company to the new organization, and at midnight Sunday the old company passed out of existence, its place being taken by the Chicago, Milwaukee, St. Paul & Pacific railroad. Henry A. Scandrett of Omaha is president and H. E. Hyman, former president, becomes chairman of the board of directors. The reorganization was carried through by Kahn, Loeb & Co. During the receivership of nearly three years the property has steadily improved, according to Mr. Hyman.

REPLYING to Secretary Kellogg's suggestion of a multilateral treaty recognizing war, the French government proposes that the ban shall be restricted to "aggressive war." This is not agreeable to our government and in a second note Mr. Kellogg shows it clings to its original stand that the treaty's declaration be against war without any qualifying or modifying definition attached, and also that other world powers be asked to unite in signing it. The new turn in the discussion is not considered by the State department to bar the way to ultimate negotiation of a treaty between France and America, and ultimately with all powers, declaring against war as a weapon in international relations.

THOMAS HARDY, dean of English literature and the last of the great Victorian writers, died Wednesday at his home near Dorchester at the age of eighty-seven, after a month's illness. Of late years the famous novelist of Wessex had devoted himself to writing poetry, but whether any of these poems will be put into print is doubtful.

Among other deaths of the week were those of Louis F. Post of Washington, author, editor and advocate of George's single tax theories; Marvin Hacht of Chicago, pioneer railroad builder and executive; Sarg A. Conley of New York, labor leader, and Dr. Julius Grinker of Chicago, eminent neurologist.

ALBERT D. LASKER, former chairman of the United States shipping board, and Mrs. Lasker have given \$1,000,000 to the University of Chicago for medical research directed toward establishing the nature, causes, prevention and cure of degenerative diseases. In other words, the aim is to increase the life expectancy of men and women who have reached middle age.

DR. KING in the electric chair in King Sing brought to a close the tragedy of Ruth Snyder and Harry Gold Gray, hard-core of the woman's husband. Resourceful lawyers tried up to the last minute to prevent the execution, but all their efforts were futile.

Lucas Is a Valuable Player

THEY voted Paul Wanner the most valuable player in the National league, and Frisch and Hornsby and Root were the runners-up. But there are many shrewd judges who thought that "Red" Lucas of the Reds was about as valuable as anybody when all angles of value are subjected to close scrutiny. Playing with a team that was in last place the first part of the season, Lucas pitched winning ball from the start and batted effectively in the pinches.

When it is considered that those four Red pitching stars and standbys, Donohue, Rixey, Luque and Carl Mays all got off to a bad start last season, showing none of their old-time effectiveness until midsummer, and that Lucas, the Boston castoff and second string pitcher, had to bear the brunt of the enemy batting attack along with Jake May, also a relief pitcher, his work can well be termed remarkable. These two second string pitchers of 1926 won 33 games for the Reds last season, which was exactly the number won by the former Big Four of the team. Lucas won 18 games and lost 11. As pitcher and pinch hitter he appeared in 50 games and batted 313.

The part played by Lucas the first half of last season is unique in the annals of baseball. His record of the past three years had showed him to be a jack-of-all-trades in baseball and good at none. He started as a pitcher with McGraw in 1923 and was let go with the advice to try for the outfield. The Braves tried him in 1925 as a second baseman and he fell down badly on that assignment and his batting was also weak. The Reds bought him from Seattle in 1926 and used him as relief pitcher. He won 8 and lost 5. As a pinch hitter he batted a little over 300. The Reds bought showed some improvement. His club had been in first place most of the season and finished a close second. But last spring the four great pitchers of the Reds all reported in bad shape, Carl Mays was sick. Donohue had lost his skill. Rixey and Luque were not in condition. And the three batsmen, Hargrave, Bressler and Christensen, who had led the league the year before, all had slumped at the bat. And so it was that Red Lucas was shoved into this batting and pitching breach, and under the strain suddenly flashed into a star. He was born in Columbia, Tenn., twenty-five years ago.

"Red" Lucas.

Sport Notes

It costs \$7 a day to maintain the average race horse.

The University of Virginia has made boxing a varsity sport.

May 19 to Derby day and we wonder why they pick a date so close to straw-hat time.

After coaching football at Lawrence college for 12 years, Mark S. Catlin has retired recently.

Winter must seem dull to an umpire who is a bachelor and has nobody to bowl him out.

The Navy thinks the Army foot ball stars play the game too long. Yes, and maybe too well.

Many a golfer who can slip a maulie shot out of a pit onto the green is a whiz on an indoor course.

Bert Ellison, former San Francisco manager, will be manager of the Dallas Texas league club in 1927.

It doesn't help the football team very much to add the new to the list of instruments in the varsity band.

There have been 24 world's series played between championship teams of the American and National leagues.

The football team of the University of Buffalo was beaten in every game except one this season, and that ended in a tie.

Devoe, veteran catcher of the New York Giants, has been released to the Toledo club of the American association.

Another nut that the historians have not cracked is how those great medieval universities flourished with out football.

Next to winning it is a great achievement to lose gracefully, and that applies to politics and football as well as to other things.

Through a department of intramural athletics, conducted by Ray Smith, 6000 students of the University of Minnesota last year took part in sport activities.

Although he is the smallest player on the Patterson Soccer club in Ballimore, George Thompson, 5 feet 2 inches, is leading his team in scoring this season.

Instead of electing a captain each season to lead the University of Washington's basketball team, Coach Hec Edmundson will appoint a floor leader before each game.

The United States will send a 15 cross team to the Olympic games at Amsterdam in 1928. It is the first time in the history of the game that increase has been included in the program.

Eight men, each more than seventy years old, who give credit to golf for their prolonged life, competed in the annual championship tournament of the Illinois Senior Golf association at Skokie.

Princess Doreen, in 41 races, finished in the money 61 times. She was in front 31 times, finished second 15 times and third in 17 starts. Her greatest year was 1925, when she earned \$20,230.

"Chuck" Werner, track captain at the University of Illinois last year, has been appointed assistant track coach at Illinois to succeed Franklin P. Johnson, recently appointed head coach at Drake university, Des Moines.

Boston Baseball Club Has New Turf Nursery

A stock of turf grown through the summer and fall months in unfrequented corners of the outfield and the experiment of sowing grass through snow are methods chosen by the Boston Braves management for insuring a smooth playing surface on Braves field this year in place of the somewhat patched and mangy appearance the field has presented during the last few years.

Failure to grow turf on the infield last spring, due to hard usage, this year led to the establishment of a "turf nursery" near the center field flagpole, where footprints are scarce.

The new sod will be brought into the infield after the last of the 1926 spring thaws to bolster up new grass sown on top of a recent snowfall.

The snow planting was carried out with a seed mixture known in golfing and baseball circles for its hardihood, sown thickly on the snow crust. The recent thaw sent the seeds filtering through to the ground and a further warm period filtered enough water to bury the mixture several inches deep.

The ground crew believes a thick new growth will result next spring.

Football Game Called a Test of Mentality

Football has been made so complicated by recent rule changes and by the modern diversified attack that the game no longer is easy for the college student to master and at the same time keep abreast of his "other studies," says Coach J. F. McKelvie, for 12 years pilot of the Arizona "Wildcats."

"The day when any lucky lad could be an athlete, especially a football player, is gone for good," declares the Arizona mentor.

"It's no clerk job for a student who has other subjects to master to nequire a working knowledge of 20 or more plays with all their variations."

"College football is growing out of the class where it can be taught easily to students."

Biggest Griddler

The photo shows Louis Pessalun, captain of the Villanova football team and biggest tackle in the East. Louis weighs 230 pounds, stands six feet two and one-half inches and is also a true man of note. He lives in New Kensington, a suburb of Pittsburgh.

THE OXFORD COUNTY CITIZEN

DAINTY PARTY DRESSES

By JULIA BOTTOMLEY

IN THE matter of party dresses, youth gaily flaunts the fact of its youthfulness before the eyes of an admiring world. For only the young girl dare proclaim as her own the bouffant dress frock which consumes yards and yards of frothy tulle or other airy-fairy fabric of diaphanous weave. So it is that the debutante together with Miss Sweet Steeple are dancing to hearts' content in "picture" frocks full of skirt and slender of bodice, quite like the lovely model pictured herewith.

This dainty dress is fashioned of two tones of chiffon—pink, and then a lighter pink if you please. Aside from its bouffant styling its most distinguishing feature is its cunning cape made of the very material as the frock itself. Fashionists are making much of these caplets for the young girl's party gown.

Festoons of little silk French flowers in every color of the rainbow make this lovely frock the more winsome. Silver slippers with flesh tint stockings complete the picture.

Turnips Are Source of Vitamines

(Prepared by the United States Department of Agriculture.)

Raw or slightly cooked turnips have been found a good source of vitamins, hence it is wise to include them frequently in the diet. Some people prefer dishes that combine other flavors with the pronounced flavor of turnips, as when equal parts of mashed potato and mashed turnip are blended together. In the recipe below for quick turnip soup the onion, parsley and milk flavors, with the raw turnip make a particularly appetizing combination.

Quick Turnip Soup.
4 cups milk 1 tablespoon flour
2 cups grated raw 1/2 tablespoon butter
turnips 1/2 teaspoon salt
1/2 teaspoon salt 1/2 teaspoon car-
1/2 teaspoon grated ley cut very fine
onion

Heat the milk in a double boiler, add the flour and butter, which have been well blended; then the turnip, the onion and the salt. Cook until the turnip is tender, or for about ten minutes. Sprinkle the parsley in the soup just before serving.

Similar to corn custard is a baked dish containing turnips which may be either grated raw or cooked and mashed. This is a substantial con- dition, suitable for the main dish at a luncheon or supper. The bureau of home economics supplies the recipe.

Turnip Custard.
1 cup grated raw 1/2 teaspoon salt
turnips or mashed 2 1/2 tablespoons
cooked turnip melted butter
2 eggs Few drops of ta-
1 dash milk bases

Beat the eggs lightly and add the salt, the turnip, the milk and the ta- base. Stir in the melted butter and bake in a moderate oven in a pan surrounded by water until the custard is set in the center. Serve at once. "Carrot may be used" in the same way as turnip.

Manhattan Pudding.—Blanch, brown and chop two-thirds of a cupful of almonds. Mix one and one-half cupfuls of orange juice, one-fourth cupful of lemon juice; add three-fourths of a cupful of powdered sugar and mix until thoroughly dissolved. Take one teaspoonful of vanilla, add in a fancy mold which has been well chilled. Mix the powdered sugar to sweeten with one pint of heavy cream, the chopped almonds, and pour over the first mix- ture, filling the mold to the top. Seal with a strip of buttered cheesecloth and pack in ice and salt.

Grapefruit and Barle Duc.—Cut chilled grapefruit into halves. Re- move the seeds and cut round each section with a sharp knife, carefully freeing the membrane from the sides and bottom, then lift out the mem- brane, leaving the pulp in place. Add a small spoonful of barle due cur- rants in the center and serve without sugar. Marmosine cherries are very good served with the fruit.

Popcorn Crackles.—Prepare a large pan of popcorn. Make a slurry of one cupful of molasses, one-half cupful of sugar, a tablespoonful each of butter and vinegar. Boil slowly until the mixture is brittle when dropped into water. Pour a little at a time over the corn, mixing well until all is touched with the slurry.

Pumpkin Rameniks.—Take one and one-half cupfuls of well-washed and strained pumpkin, add two-thirds of a cupful of brown sugar, one tea- spoonful each of cinnamon and cin- ger one-half teaspoonful of salt, two eggs and one and one-half cupfuls of milk and one-half cupful of cream. Fill the rameniks which have been elased in cold water, two-thirds full. Bake in a moderate oven until a golden brown and thoroughly cooked. Serve with whipped cream.

Versatile Filling.—Shred one-half cupful of blanched almonds and one-half cupful of coarsely cut butter. Mix with one-half cupful of sour cream and stir in confectioner's sugar to

The newest idea is the tulle frock tiered to the waistline with bonnets. The sleeveless bodice is of satin, with which is worn a cape of the tulle. Carried out in tones of yellow such a frock will number among the prettiest.

Some there are who are wearing taffeta instead of tulle or chiffon, in which case color is made the out- standing feature. Gowns of white taffeta garnished with either white or

A recent invention which is a help in dress prevention is an automatic switch for the electric iron. When the iron becomes overheated the cur- rent is cut off at the switch.

The oil from walnut meats will make small scratches or pricks on furniture entirely disappear. The nuts should be finely chopped or crushed and should be rubbed on the scratch with the finger.

A bit of dry mustard rubbed into a ham before it is baked gives it a pleasant flavor.

Close-fitting hats are not becoming to most women who wear glasses. They tend to make the face look small and the glasses prominent.

Plenty of sunshine is a good pre- ventive of colds. Make a point of get- ting out of doors in the middle of the day when the sun is warmest.

Curtains for the Home Are Very Easy to Make

Important Task Seems to Be in Taking Measurement.

(Prepared by the United States Department of Agriculture.)

There are the same advantages in making your own curtains as in making your own dresses. You get an individually fitted product, of color and material selected to go with other furnishings, and often you either save money by doing the sewing your- self, or get better materials for the same money.

The simple curtains used in most homes at present generally intended to be washed and ironed when neces- sary, are easy to make. They may be plain glass curtains, with or without side draperies, or simple ones looped back, such as the ruffled colonial cur- tains, or side curtains only if it is de- sired merely to frame an unobstructed view. The suggestions following apply to making any of these types of curtains.

Before you buy your material, take very careful measurements. The bu- reau of home economics suggests that you begin by drawing to scale the window or group of windows to be curtained. Then you can plan on the drawing just what kind of curtains you will have and how they will be hung, and measure on the drawing accordingly. Glass curtains will be hung from the lowest part of the top casing and just escape the sill. If side curtains are used they should be hung from the middle of the upper casing and reach the bottom of the "apron" below the window, or to with- in one-half inch from the floor. The yardage you buy will depend partly on the width of the material. Some materials are sufficiently wide to al- low splitting lengthwise for the two sides of the window, but ordinarily two lengths of goods are bought for each window, even if part of the width should be trimmed away. Seam draperies are not attractive.

After the length of the finished cur- tain has been estimated on paper and checked on the window itself, add at least nine inches to the amount of

goods required for each curtain, for hems and shrinkage. If there are to be valances, plan to have them one- sixth the length of the side hangings when finished, and allow nine inches extra in the same way. The length of a gathered valance is usually one and one-half times the width of the space it must cover.

If the material you are using has a distinct pattern it will have to be bal- anced at each window, sometimes at every window. In this case have the length you have recorded laid off for as many curtains as you need on the goods in the bolt before cutting. There will probably be some unavoid- able waste in matching. When you cut off the lengths of curtains in pre- paring to make them, draw a thread, if the weave permits. This will guide you in cutting absolutely straight. Otherwise the curtains will not hang straight, especially after they have been laundered. Trim off all selvages so the side edges will not shrink or sag when the curtains are washed.

Make the side hems first, then the top and bottom hems, using a card or other gauge and carefully matching both halves of each window in length. Allowances for shrinkage can be con- sidered in the top hem or hemming, or it may be bustled in as a tuck just be- low the top casing, or an extra hem

Measure and Cut Curtains With Care.

may be turned in at the bottom. On transparent materials such as used for glass curtains, both the first and second turning of the hem should be the same width. This gives a better effect when the light shines through.

Press curtains carefully, keeping them straight with the thread of the goods, when ready to hang them. Even with the greatest care in cutting and making, curtains do not always hang evenly. Irregularities can unusu- ally be adjusted by little tucks at the upper casing.

Lemon extract, two lightly beaten eggs and a pint of rich milk with one tea- spoonful of salt. Combine the in- gredients and turn into a rich pastry shell. Bake in a moderate oven for an hour or until the pie is a rich brown. Serve on state occasions with whipped cream and grated cheese over the top.

(© 1923 Western Newspaper Union.)

Juicy Broiled Steaks

Steak broiled in a Gas Oven.

(Prepared by the United States Department of Agriculture.)

Steaks and chops may be broiled with equal success in the gas oven or on a coal or gas range. In either case the meat gets that delicious broiled flavor which many persons think can not be surpassed by any other method of cooking. In broiling the meat should be seared at high temperature first to prevent the escape of the ap- petizing meat juices. The bureau of home economics of the United States Department of Agriculture gives other points about broiling steaks in the gas oven.

Select a porterhouse or a sirloin steak from 1 1/2 to 2 inches thick. Trim the steak of excess fat and wipe it off with a damp cloth. Grease the coals of the broiler and place the steak on it underneath the flame of a

gas oven. Do not close the door. Sen- se on one side and then turn, being care- ful not to break the tender coating which holds in the juices. When both sides are seared turn down the flame and cook the meat, turning to cook evenly to the desired "doneness." After searing, the steak may, if de- sired, be placed in the broiling oven with the door closed and the cooking finished there. This will leave the housewife's time free for other in- stantaneous preparations. When done place the steak on a hot platter, and salt, pepper, and melted butter. Gar- nish with parsley and serve at once.

No delicate line can be given for cooking a steak because of varying thickness, heat of oven, and personal preferences. A steak 1 1/2 to 2 inches thick will probably require 20 to 25 minutes to be cooked medium rare.

Winter's Colds and Chills

Throw Heavy Burdens on the Kidneys.

COLDS put extra burdens on our kidneys. When the kidneys slow up, impurities remain in the blood and are apt to make one tired and achy with headaches, dizziness and often nagging backache. A common warning is scanty or burning secretions. Doan's Pills, a stimulant diuretic, in- crease the secretion of the kidneys and aid in the elimination of waste impurities. Are endorsed by doctors everywhere. Ask your neighbor

SOUTH WATERFORD

Will Jordan remains quite ill at his home here.

Mrs. Charles Hamlin gains very slowly since her recent illness.

Mrs. Pearl Bradbury is still confined to the house but is able to be up a part of the time each day.

Miss Louise Moulton of Bridgton was a guest of her niece, Mrs. Albert Hamlin, for several days.

Mrs. A. A. Monroe and Miss Ethel Monroe attended the Council meeting of the United Parish at E. Stoneham on Thursday.

Mrs. Jennie Haynes, who is spending the winter with her daughter in Harrison, is at her home here for several days and calling on friends.

Mrs. Harriet Brown, who has been ill with the grip, is improving.

Mrs. Corral Sanborn and son, Richard, returned from the M. G. Hospital, Saturday. Richard is gaining slowly after his long illness.

Miss Arki Niemi, who has been in poor health for some time, went to the Hebron Sanitarium recently for treatment.

The supper on Wednesday night for the benefit of the Sat. Religious School was well attended. The supper was followed by the moving picture, "Rugged Water," which was much enjoyed.

A delightful day was spent on Saturday when N. Waterford Grange was a guest of Bear Mt. Grange. The third degree was conferred on three candidates by the ladies' degree team of Bear Mt. Grange and the fourth degree conferred by the regular officers. There was a joint installation of officers in the P. M., the work being done in a very pleasing manner by W. W. Abbott of Bear Mt. Grange, assisted by Clinton Kilgore and Miss Lillian Kimball.

The following were installed as officers of Bear Mt. Grange:

Master—W. K. Hamlin.
Overseer—Barton Sanderson.

Lecturer—Miss Lillian Kimball.
Steward—Chas. A. Kimball.

Asst. Steward—Henry S. Haynes.
Chaplain—Chas. S. Hamlin.

Secretary—Mrs. Maud Sanborn.
Treasurer—Geo. L. Hilton.

Gate Keeper—Clinton Fletcher.
Ceres—Mrs. Clara Hamlin.

Pomona—Miss Dorothy Holden.
Flora—Mrs. Ida E. Riggs.

L. A. Steward—Mrs. Millie Clark.

The Sunday evening service held at the home of Mrs. Ida Riggs was well attended. On Sunday evening, Jan. 22, the service is to be held at the home of Mrs. Arthur Kingman.

SOUTH ALBANY

Mr. and Mrs. Robert Hill were Sunday evening guests at James Kimball's.

Mrs. Howard Allen was called to North Waterford, Saturday, to care for her daughter, Mrs. Ernest Grover, who is quite ill with heart trouble.

James Kimball recently killed a deer.

E. N. Shedd called at Leon Kimball's Sunday.

Mr. and Mrs. Clayton McIntire and children were Sunday guests of Mr. and Mrs. Fred Scribner.

Mrs. Lilla Stearns has returned home from Bethel where she has been at work.

Robert Hill was in Bethel last week, Thursday, to deliver a veal calf.

Ray Wardwell was in Bethel town last week repairing telephones for W. H. Pike and E. K. Shedd.

W. I. Beckler called on Ray Wardwell Monday.

Arthur Wardwell has been ill a few days with a bad cold and sore throat.

W. E. Canwell, M. N. Sawin and J. E. Brown finished putting in their ice last Saturday.

Mrs. Bernard Allen has been having a bad cold on her hand.

Frank Damon, Monday.

Ingalls McAllister and Chas. Mory are having pulp for Leon Kimball.

Mr. Bull preached a very interesting sermon at the Albany Church, Sunday.

WEST BETHEL

Mrs. Adey Thayer of Bethel visited at East Jordan, Sunday.

Richard Jordan is home from Norway for a few weeks.

Mrs. Martha Kendall of West Paris is visiting at Stowell's boarding house.

Ethel Bennett of Portland was home over the week end.

Students from Woodstock High presented a drama at the Grange Hall, Saturday evening, to a large crowd. A dance followed the drama.

Gertrude Cushing was home from Lewiston over the week end.

Mr. and Mrs. Albert Bennett were in Bethel, Sunday.

Mr. and Mrs. Hollis Hutchinson are with Mr. and Mrs. A. J. Hutchinson for a time.

Miss Thelma Lynn spent the week end at her home in Bethel.

Mrs. Clarence Bennett is able to be out after having a bad cold for the past two weeks.

Miss Frances Chapman of North West Bethel was a guest of Miss Esther M. M. recently.

NORTH WATERFORD

There will be an installation of officers of the Geo. M. Knight W. R. C., Jan. 19th, held in the vestry of the church.

Mrs. Flora Nason was taken to the Maine Gen. Hospital at Portland, Me., Monday.

Mrs. Ernest Grover is seriously ill at her home. Her mother, Mrs. Howard Allen, is caring for her.

Mr. and Mrs. Ed. Farmer, who have been ill the past week, are much improved.

Mrs. Annie Holmes of Welchville has been visiting her friend, Mrs. W. L. Flint, for the past few days.

The Grange will give a dance at the Grange Hall on Saturday, Jan. 21.

The Rebekahs are to have a dance at Odd Fellows Hall, Saturday, Jan. 28.

The Odd Fellows and Rebekahs held a joint public installation on Saturday night at Odd Fellows Hall.

The officers installed were as follows:

Rebekahs:
Noble Grand—Myra Flint.

Vice Grand—Blanche Button.
Rec. Sec.—Leah Rolfe.

Fin. Sec.—Myra Cheever.
Treasurer—Ellen Farmer.

Chaplain—Carrie Moulton.
Odd Fellows:

Noble Grand—Earl Libby.
Vice Grand—Fred Hersey.

Rec. Sec.—Winfield Perkins.
Fin. Sec.—Mel Knight.

Treasurer—Clat Nason.
Chaplain—Riley McKeene.

A supper preceded the installation which was enjoyed by everyone.

There will be a community meeting Friday evening at Odd Fellows Hall.

The Outing Club is making elaborate preparations for a carnival to be held in February.

The Grange of No. Waterford enjoyed an all day meeting at So. Waterford, Saturday. The third and fourth degrees were worked in the morning and in the afternoon the officers of both Granges were installed.

GILEAD

John Richardson was a recent visitor in Bethel.

Mr. and Mrs. Samuel Oakes have completed their duties for G. E. Leighton and returned to their home in Perry, N. H.

The Ladies' Parish Guild met at the home of Mrs. Vera Granville last Wednesday afternoon.

Samuel Moore has been spending a few days with relatives in Berlin.

Mrs. Margaret Gallagher of Berlin is visiting her sister, Mrs. Mary Fisten.

Mr. and Mrs. Ernest Rice have finished work at Leighton's camp and returned to their home in Perry, N. H.

Mr. and Mrs. Frank Coffin and sons of Berlin were in town Tuesday.

Alvin Aabin had the misfortune to cut his thumb quite badly last Friday morning while working at Leighton's camp.

Mr. and Mrs. Joseph Lary returned to Norway, Friday evening, after having called here by the death of his brother, Hosen Lary.

Mr. and Mrs. Walter Griffin of Portland were recent guests at the home of A. T. Heath.

Mrs. Lela Lary and Mrs. Vera Heath of Bethel were in town last Monday to attend the funeral of Hosen Lary.

The many friends of Hosen Lary were very to learn of his sudden death which occurred Friday night, Jan. 6, at the home of Mrs. Herbert Arnborg. He is survived by one brother, Joseph Lary, of Norway and several nieces and nephews. Funeral services were held at the Congregational Church conducted by Rev. L. A. Edwards of Bethel on Monday afternoon at one o'clock. The pall bearers were Fred and Goodwin Cole, A. T. Heath and John McBride. There were many beautiful flowers. Interment was in the Pine Grove cemetery.

Edward Holden was a visitor in Bethel last Tuesday.

Miss Beatrice Taylor has gone to Gorham where she has employment.

Misses Rita and Eva Aabin have returned to North Milla, Vt., after spending their vacation with their parents, Mr. and Mrs. Aabin Aabin.

Gerald Danie's has returned to Portland after spending several days at his home here.

SONGO POND

Mrs. Charles German and baby and Miss Mildred German were guests of Mrs. E. O. Donahue, Saturday.

Mr. and Mrs. L. W. Russell and Roy and Brown were called at A. B. Kimball's, Sunday.

Mr. and Mrs. E. O. Donahue and baby were Sunday guests at W. I. Beckler's.

Mrs. E. O. Donahue had the hard luck to fall on the ice and hurt her right wrist quite badly Sunday.

Mrs. Phil McAllister of Norway was a guest of her sister, Mrs. Herman Brown, Sunday.

Richard Brown has finished working for L. N. Kimball and gone back to Bethel.

Mrs. Alta Bird visited at her aunt's, Mrs. W. I. Beckler's, Sunday.

Clayton Penley is working for L. N. Kimball and boarding at his brother, Clayton Penley's.

NAIMEY'S

ISLE ISLAND

By ETHEL HUESTON

Copyright 1927 by The Bobbs-Merrill Co.
WNU Service.

STORY FROM THE START

On the verge of nervous collapse, due to overwork, the face, successful New York artist, weeks rest at Isle Island. She finds a cottage, the "Lone Pine," from an island character, the "Captain," and his sister, Alice Andover, "administrators." Day finds the cottage is tenanted by an elderly lady, "Auntie," who consents to move to another island, the "Apple Tree." On the afternoon of the day just previous, she had affectionately cleaned and polished the baby, and loaded every chamber. Some other hand, not hers, had emptied that barrel.

CHAPTER VII

One day, toward the end of the month, when hand had gone to the city by the early boat and was not present to witness the abjectness of her surrender to his love, Gay went bravely up to the Captain's door and told him she was still ill and weak to return to the stress of the city; she felt it the part of wisdom to remain in the Lone Pine through October.

The Captain scratched the thin line of gray hair that outlined his furrowed brow.

"I'll put up the storm windows on the summer houses come October first," he said vaguely.

"Not the Lone Pine, not this year," she cried again. "You will have to

upon her sentiment, and the Captain chuckled slyly before he took advantage of the moment to interpolate plaintively:

"But I'll do put up the storm windows on the summer houses come October first."

And on the morning of October first, Gay, weakening early, was conscious of a confusion of sounds upon her hilltop, a sound of trundling, a sound of chattering, muffled swearing in a high-pitched, gentle, unassuming little voice. She wrapped herself in a heavy robe and ran down. The Captain stood by the piazza carefully unloading from his rickety wheebarrow the huge wooden frames to protect the windows from the winter storms, a difficult matter for the little frail old man, so that he accompanied his efforts with panting gasps of breathlessness, and much gentle profanity.

"Auntie—Why—what in the world—"

"First of October, Gay, I'll put the storm windows up come October first. Looks some like a big nor'easter headed in. Think?"

He looked persistently away from her, down the peaceful smiling little valley, his profusion of harvest apples teamed with silver cobwebs. A nor'easter!

She flew into her clothes, down the hill and up the lane to Mrs. Andover's. "See here," she shouted; "come quickly. He's putting up the storm windows."

"My dear! He's not! He wouldn't dare!"

"You just tell him I said—"

"I shall tell him nothing. You're the administrator. You must come yourself."

After Andover sighed resignedly. "Well, all right then. If anybody thinks it's my place to be the administrator for an old fool that tries to run good tenants out of his own house—"

Not one word passed between them as they made their way swiftly down the lane and up the hill slope.

"John," Alice Andover began with icy coldness, "will you kindly tell me who is the administrator of this estate?"

John removed a rusty nail from his mouth. "You are, Alice," he said, holding it carefully into a hole in the frame. "You're the one that puts up the storm windows." Bang, bang, went the hammer as he spoke.

Alice Andover wavered uncertainly, dashed with anger, but clung to the shreds of her dignity. "John—John—Christian Wallace—do you hear me?"

John banged another nail into the frame. "Yes, Alice. God help me, I hear you," he answered gently.

Gay looked around her, far and wide—at the silvery little forest of spruce and birch, whispering tops, at the arch in its autumn gold below, at the little cottage on its rocky perch a lookout over land and sea. She looked and thought of hand. A little thing that touched at her heart. She could not go away.

"Isn't the cottage for sale? How much do you want for it? Perhaps I'll buy it."

"My dear! How lovely that is. The dear little cottage. How happy you are going to be—John," severely, "do you hear? She is going to buy the cottage."

The Captain smiled slyly, dropping his nails back into the bag. "Reckon you won't want these storm windows up then, will you? Shall I store 'em in the cellar for you?"

When Gay swung up the hill slope that afternoon, joyous in complete ownership she saw hand clinging on the piazza step. Her eyes were shut.

ing as she told him of her acquirement.

"You do love me," he said in a low voice, and kissed her.

Gay in her triumph, she led him, proudly, all over the cottage, exulting in its charms. It was hers, the home of her love, her cleft in the rocks, her bit of bare ocean, her rift of forest. Here, all hers, and for love. She belonged to it, it belonged to her, and both alike for Rand.

"But don't you realize, Gay," he said soberly, when they sat quiet, side by side, at last, "that you will not be happy here for long? It is because it is temporary that it is dear to you. You love me, and you love this place, because you can get away from us whenever you like. Tying you down to it will be the end of everything."

"That is the beauty of it, Rand, I shall not be tied down. This is my home, but I shall kick my door and run away to the city whenever my mood, or my work, suggests it. I shall stay away as long as I like, and then come home again with joy."

"But when you cease to love me, you will cease to love this."

"But as long as I am free in my love, I shall never cease. It is only when love lies people down, restricts them, rules them, that they chafe at the chains. Leave me free, Rand, as I shall leave you, and we shall go on and on all our lives in love and happy."

Andover's pleasure in Gay's remaining was unalloyed, for she loved the girl and Alice Andover had already asked her to remain in the Apple Tree during the winter so she felt no disappointment on that score.

"It will be nice to have my little neighbor on top of the hill," she said pleasantly. "I like the Apple Tree better anyway. It was only for the Christmas party that I came up here."

"I always have a Christmas party for the island," she explained to Gay. "I offered the use of the Lone Pine for the event, but Aunt Almira shook her head. She said it would not seem like her party if she had it anywhere else. She wanted it all hers."

When she had gone, Alice Andover asked Gay why she had not, as she requested, told her she could have no Christmas party.

"Why didn't you tell her yourself?" Gay retorted.

"Well," said the administrator, "I'd rather have you tell her. I think she would take it better from a stranger. I know her too well. You tell her, first chance you get. But tell her when I'm not there."

Every day that, Aunt Almira talked of her Christmas party, under her plans, and it was not in Gay's kind heart to crush her hope with the word. So at last Alice Andover herself was driven to it, as they sat three in Gay's living room before her cheeks flew.

"Aunt Almira, John and I decided that you can't have any Christmas party this year."

Aunt Almira did not understand at all, and with a vaguely troubled smile answered that Alice? What say?

"Aunt Almira, you hear what I say. You can't have a Christmas party. It costs too much, and it's too much work. Last year you nearly worked yourself into pneumonia, and nearly died giving that Christmas party. And those little rascals don't need a party; they—"

"But I need it! The small voice was suddenly protesting plaintive. "Almira, I need it. Seems like I put time for that Christmas party from year to year. It's the only recreation I have—"

"Recreation? nonsense. Call it recreation working yourself to skin and bone to give half the island fellows that cotton candy and nuts? Recreation to make those rascals presentable clutter up the house with trash—You hear me now, you can't have it."

Aunt Almira was allowed. The little frozen smile melted more grimly upon her face, her little bluish fingers twisted nervously together. Very soon she was silent, and now and then, a little, she was very old. Gay watched Alice Andover watching in silence as she made her way down the slope to the Apple Tree.

"After it," Alice Andover repeated bitterly, when the door closed behind her. "After it. Who do you suppose pays for her Christmas party? John does. I do most of his pay, but mostly me for I am the administrator. She hasn't any money. She hasn't had any money for twenty-five years. After it—But it's not the money. It's the work. She begins three months ahead—In she's at it already, working the fingers to the raw bone, getting ready for Christmas—I know her sewing. Making things. Planning jobs, and presents—And last year she was in bed three weeks afterward. She's too old. She works like a slave for it, gets thin, gets pale—Why, the way she works for that Christmas party, she could almost earn her own living—if she had to," she added apologetically. "Nobody wants her to earn a living, of course."

Much to Gay's surprise, she found that Rand was not always available. For one so indifferent, on an island so little, he found an incredible number of things with which to busy himself.

W O N E CONTINUED

Carp Broke Window

When two policemen of Wilmington, Del., heard the crash of falling glass they expected to find an intruder in a fish store there, but when they arrived on the scene they saw nothing but shattered plate glass and a nine-pound carp lying on the pavement, Ben Weintraut, the owner of the store, explained the mishap by saying that he had taken the carp from a tank and was awaiting the arrival of a rabbit to kill the fish when the carp, frantic in its struggles to seek water, gave a mighty flap of its tail and broke the window.

Flu May Start with a COLD

So-called "common" colds are dangerous, Grippe or Flu may result. Check the cold promptly, HILL'S Cascara-Bromide-Quinine tablets stop a cold in one day. Drive out the poisons. Play safe! Insist on HILL'S, in the red box. 30 cents at all druggists.

Williams—So the train hit you and carried you on the cowcatcher for several miles? Brown—Yes, and I suppose I'd be on there yet if the conductor hadn't kicked me off for not having a ticket.

Have Kidneys Examined By Your Doctor

Take Salts to Wash Kidneys if Back Pains You or Bladder Bothers

Flush your kidneys by drinking a quart of water each day, also take salts occasionally, says a noted authority, who tells us that too much rich food forms acids which almost paralyze the kidneys in their efforts to expel it from the blood. They become sluggish and weak; then you may suffer with a dull misery in the kidney region, sharp pains in the back, or sick headache, dizziness, your stomach sour, tongue is coated, and when the weather is hot you have rheumatic twinges. The urine gets cloudy, full of sediment, the channels often get sore and irritated, obliging you to seek relief two or three times during the night.

To help neutralize these irritating acids, to help cleanse the kidneys and flush out the body's urinous waste, get four ounces of Jad Salts from any pharmacy here; take a tablespoonful in a glass of water before breakfast for a few days, and your kidneys may then act free. This famous salts is made from the acid of grapes and lemon juice, combined with lithia, and has been used for years to help flush and stimulate sluggish kidneys; also to neutralize the acids in the system so they no longer irritate, thus often relieving bladder weakness.

Jad Salts is inexpensive, cannot injure and makes a delightful effervescent lithia-water drink.

Always the Same

"What, another row with your wife? What's the trouble this time?" "The same old thing—she's right and I don't agree with her."—Sissy Stories.

WOMEN OF MIDDLE AGE

Praise Lydia E. Pinkham's Vegetable Compound

Mrs. Annie Kivinski of 526 1st Ave. S., Milwaukee, Wis., writes that she became so weak and run-down that she was not able to do her housework. She saw the name Lydia E. Pinkham's Vegetable Compound in the paper and said to her husband, "I will try that medicine and see if it will help me." She says she took six bottles and is feeling much better.

Mrs. Mattie Adams, who lives in Bowling Street, Brewton, Ala., writes as follows: "A friend recommended Lydia E. Pinkham's Vegetable Compound and since taking it I feel like a different woman."

With her children grown up, the middle-aged woman finds time to do the things she never had time to do before—read the new books, see the new plays, enjoy her grandchildren, take an active part in church and civic affairs. Far from being pushed aside by the younger set, she finds a full, rich life of her own. That is, if her health is good.

Thousands of women past fifty say they owe their vigor and health to Lydia E. Pinkham's Vegetable Compound, and are recommending it to their friends and neighbors.

Coughs and Colds

are not only annoying, but dangerous, if not attended to at once they may develop into serious ailments.

Storm-Damaged Autos

A number of automobiles caught on the Meridian (Kan.) road during a wind and sand storm were badly damaged.

The wind hurled sand and gravel against the windshields, cutting so many tiny holes on them that it was impossible for the drivers to see. At the same time the sand cut out of the paint from the cars.

The BABY

is mother in this enlightened age

and give her baby something else

and know was perfectly harmless,

especially when a few drops of plain

Castoria will right a baby's stomach

and almost any little ill. Stomach

and fever, too; it seems no time

and everything is serene.

That's the beauty of Castoria; its

influence seems just what is

needed. It does all that castor oil

can accomplish, without shock to

the system. Without the evil taste

of castor oil, being purely vegeta-

ble, you can give it as often as

needed as a sign of colic; constipation;

or, as of need to aid sound, nat-

ural sleep.

Get the warning: It is genuine

Castoria. Other preparations may

be free from all harmful drugs,

but the child of this world is going

to get the best. Be like the look on

the face of a mother who knows

that her baby's Castoria is worth its

weight in gold.

What Oil Drillers Are Doing to California Beaches

This view of the tidelands adjacent to the Coast highway near Santa Barbara, Calif., shows oil well drill crews preparing to convert California's beautiful shoreline into a morass of derrick, sump holes and the beaches in their pristine beauty.

Why Is a Tide? Here's Answer

Layman Can Comprehend Half of Reason—Rest Not So Easy.

Washington.—Why is the tide?

Half the answer is easy, points out a bulletin from the Washington (D. C.) headquarters of the National Geographic Society. But most laymen find the other half hard to comprehend.

"It is relatively easy to understand why the moon should tend to pull a tide into existence on the side of the earth directly under it," says the bulletin.

"But why at the same time should it appear to push up a tide on the far side of the earth?"

"The usual explanation of the formation of the bulge on the far side is that just as the moon draws the water nearest it away from the solid part of the earth, so it draws the solid part of the earth away from the water furthest from the moon. But the average layman is likely to rebel at this explanation, since he does not carry in his mind the implications of celestial mechanics that go with it."

"The explanation begins with the fact that the moon does not simply revolve in an orbit around the earth. It also throws the earth to revolving in a little orbit."

"How Force Operates."

"When you playfully grasp a small child by the hands and swing it around in a circle you cannot stand erect and pivot on a single heel. Instead you must lean backward and take tiny steps in a very small circle in order to maintain your balance. The small circle which your feet follow is traced out in the opposite direction to the larger circle traced by the flying feet of the whirling youngster."

"The situation with regard to the earth and moon is similar. The force which connects these two whirling globes is just as real as though it depended on a huge steel shaft, several hundred miles in diameter, connecting them. When the earth swings the moon around it, the earth must back off, so to speak, in a little circle (or ellipse) of its own."

"What happens is that both bodies revolve around their common center of gravity. Since the earth has a mass so much greater than that of the moon this common center of gravity is not far from the center of the earth. It is as though you had a heavy tennis ball fixed to one end of the connecting shaft, and a small boy's marble fixed to the other. The balancing point would be inside the big ball. You could find it for the surface point above it, drive in a nail, and have the balanced balls up by a string. Now, if you twisted the

string the little ball would revolve about the line of the string in a large circle, and at the same time the outer side of the big ball would revolve around the same line in a small circle."

"In the case of the earth and moon, the balancing point, or common center of gravity is about 1,000 miles below the surface of the earth, and about 3,000 miles short of the earth's center."

"If There Were No Moon."

"Now imagine, for a moment, that the earth were somehow fixed in space, neither rotating nor revolving with no moon in the heavens, and with no other forces acting on it but its own gravity. Its water surfaces would tend to form parts of a perfect sphere, no bulges. Now imagine the moon to be placed 238,000 miles away (its present average distance) and at so in some way to be fixed in space. No motion to either earth or moon. Further, assume that moon and earth attract each other as they now do. The waters of the earth would bulge away from the moon toward the moon. On the side nearest the moon be a certain extent away from the rocky part of the fixed earth. But there would be no bulge on the far side of the earth."

"Start imagine the earth and moon to start revolving around their common center of gravity once every 27 1/3 days, as at present, but not rotating on their axes. Two fixed bulges would now exist, the one toward the moon and the other away from the moon. The earth would grow less than when the moon was not there, but would still be held up by the moon's pull."

"But why would the bulge arise on the far side of the earth from the moon?"

"Striving to Fly Apart."

"The earth and moon, revolving around their common center of gravity in approximately one month, are striving to fly apart, and to strike out in straight paths that would carry them away from each other. They cannot really fly apart because gravitation holds them together, but none the less they are constantly trying to fly off."

"Consider now only the earth's tendency. Continually the earth seeks to fly off in a straight line away from the moon and continually the moon drags it back into the little orbit that has been described. But the water on the side of the earth away from the moon is 4,000 miles farther from the moon than is the center of the earth, and it is free to flow as the solid earth is not. Therefore this remote water is pulled back with a weaker force than the solid earth and so takes a slightly greater orbit than the solid earth and bulges away from the moon."

"It is this tide-producing force on the side of the earth farthest from

Paris Creates Gowns for Artificial Light

Paris.—Dresses exclusively for wear under artificial light are created by one Paris designer.

Lance frocks are displayed by a modern telephone known as the Paris dancing mannequin.

whose feet move constantly in a series of complicated dances as she exhibits gowns to prospective buyers. Women have an opportunity to see clothes as they actually appear in the pitiless glare of light and under the most trying circumstances of the dance floor.

The moon can best be understood in terms of an automobile's motion. If an automobile is traveling rapidly in a straight line along a street and suddenly turns a corner, occupants of the back seat will be thrown forcibly to the outer side of the car, away from the center of curvature. Pack ages will slide across the floor and pile up on the outer side of the car.

Like Skidding Packages in Auto.

"Both the automobile and its contents have the tendency to go on in a straight line. When the steering wheel is turned, the car—if it does not skid—responds to a force changing its direction; but the packages and passengers, being free to move about, respond to the changed direction less quickly, and 'pile' on the outer side. If the car is driven rapidly in a small circle the movable objects and passengers are given a continual urge toward the outer side."

"Now, the earth is being driven constantly in a small circle, so to speak by the moon. That is, its direction is continually changing from a straight line to a circle. The waters of the oceans are the most freely moving objects on this circularly traveling earth. Consequently, these nearer the outer side of the curved path tend to pile up to form the tide on the side of the earth away from the moon."

Tidal Force Turns Earth.

"Now, remembering that our huge earth and moon are revolving in space, but rotating, let us make the more change to bring the situation into accord with the actual facts. Start the earth to rotate on its axis once in 24 hours. The tide-producing force, toward and away from the moon, would continue to operate as before, tending to pull the water into bulges. But these bulges would no longer remain at the same two places on the surface of the earth. The earth would turn under the forces away from the poles would be subjected to a tide-producing force as frequently every half day. The pole is slightly greater than half a day because of the moon's revolution around the earth."

"How the tides actually operate, however, how their theoretical action is altered by the sun by the shapes and extents of ocean basins, and by changes in the distance between earth and moon, make another story."

Tenat Farmer's Girl Wins as Cotton Queen

Nacogdoches, Texas.—The cotton queen of Texas is the daughter of a tenant farmer.

Seventeen-year-old Ruby Lee Williams won the crown by raising three bales of cotton on one acre of land.

She deposited Elgin Daniels, eighteen years old, also of Nacogdoches, who obtained two and one-half bales of cotton on one acre.

A bale of 480 pounds was used as a basis for deciding the annual cotton queen contests.

Both the new and the old queen will go to Havana, Cuba, as the guests of a company manufacturing nitrate, a product used in fertilizing cotton lands.

Tough on Prostitution

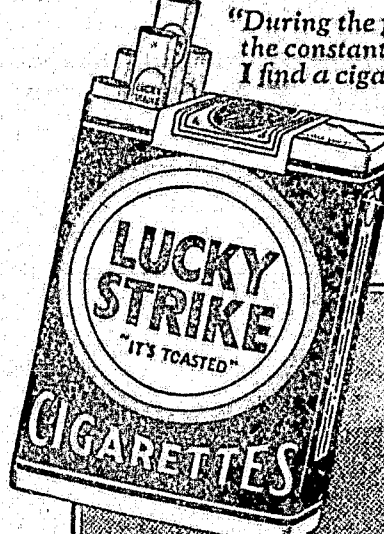

New York.—Italian radio experts have a theory that voices of persons who have spoken over the radio will wander through the ether invisibly and be picked up, say, 100 years hence.

JAMES CRUZE

Director of Feature Photoplays, writes:

"During the filming of The Covered Wagon, the constant use of my voice demanded that I find a cigarette which I could smoke without any chance of throat irritation or cough. After trying them all, I decided on Luckies. They are mild and mellow."

James Cruze

FRANK KEANE

The Cream of the Tobacco Crop

"The growth of LUCKY STRIKE Cigarettes is a wonderful thing but there is a reason. I know, because I buy the Tobacco for LUCKY STRIKE. I buy 'The Cream of the Crop,' that mellow, sweet smoking Tobacco that the Farmer justly describes as I have described it above. The quality of LUCKY STRIKE Cigarettes is telling. It is natural that the brand should show the tremendous growth that it is showing today."

Buyer of Tobacco Louisville, Ky.

"It's toasted"

No Throat Irritation—No Cough.

FREE Tobacco COUPON

One always desires the age to be "sordid" enough to afford him good food, good clothes and good shelter.

IF MOTHERS ONLY KNEW

During these days how many children are complaining of Headache, Fever, Stomach Troubles and Irritable Bowels and take cold easily. If mothers only knew what Mother Gray's Sweet Powders would do for their children, no family would ever be without them for use when needed. These powders are so easy and pleasant to take and so effective in their action that mothers who once use them gladly tell others about them. Save yourself a night of worry, by getting a package at your drugstore today. Trial Package sent FREE. Address Mother Gray Co., Le Roy, N. Y.

The Limit

Would-be Hunter—What is the game limit in this locality?

Native—Two deer and one golfer.

ASPIRIN

The whole world knows Aspirin as an effective antidote for pain. But it's just as important to know that there is only one genuine Bayer Aspirin. The name Bayer is on every tablet, and on the box. If it says Bayer, it's genuine; and if it doesn't, it's not! Headaches are dispelled by Bayer Aspirin. So are colds, and the pain that goes with them; even neuralgia, neuritis, and rheumatism promptly relieved. Get Bayer—at any drugstore—with proven directions.

Physicians prescribe Bayer Aspirin; it does NOT affect the heart

Aspirin is the trade mark of Bayer Manufacture of Monocarbonylchloride of Salicylic Acid.

CRIME HITS NEW DIAMOND MINES IN SOUTH AFRICA

Daring Holdups, Murders and Free Fights Are Occurring With Alarming Frequency.

Cape Town.—Free fights, murders and robberies are occurring with alarming frequency on the Lichtenburg alluvial diamond diggings. Since the recent rushes thousands of diggers have assembled in the vicinity and among them are ex-convicts who up near to reaping a rich harvest.

There have been several cases of daring holdups. The latest was one in which a Witwatersrand digger named Pretter was set upon late at night by a gang of native desperadoes who demanded money. He refused, upon which they set upon him with sticks and robbed him of £10, leaving him seriously injured.

Information was given to the police and a posse set out to arrest the gang.

They came upon them and the natives put up a fight with the result that the police were compelled to fire, the native was killed. The others were arrested.

Another incident occurred at a nearby field where a native was caught stealing a bag of diamonds. He was taken to the police station and a search was made after the first search. The owner fired and wounded the native slightly. The latter drew a knife and attacked the white man, killing him. While on the ground the native stabbed the injured man, who was taken to the hospital in a critical condition.

Murders Don't Count

New York.—Murders in South Africa don't count "because it is a wild country," in the opinion of Sir Ernest Farther, who admitted conviction of two.

Tenant Farmer's Girl Wins as Cotton Queen

Nacogdoches, Texas.—The cotton queen of Texas is the daughter of a tenant farmer.

Seventeen-year-old Ruby Lee Williams won the crown by raising three bales of cotton on one acre of land.

She deposited Elgin Daniels, eighteen years old, also of Nacogdoches, who obtained two and one-half bales of cotton on one acre.

A bale of 480 pounds was used as a basis for deciding the annual cotton queen contests.

Both the new and the old queen will go to Havana, Cuba, as the guests of a company manufacturing nitrate, a product used in fertilizing cotton lands.

TALES
WISE OR OTHERWISE

"TO AN OLD FRIEND"

All this day of you I've pondered,
And the dim and shadowy past
When together off we wandered,
Not these days went by too fast.
Of those vanished years of childhood
Of those idle hours we spent
Roaming through the tangled wildwood
—These were days of sweet content.

Naught knew we of care or sorrow,
Happy playmates full of glee;
Regardless of what came "tomorrow"
Floating in on life's rough sea.
Off we played beside the river,
Whipping rocks across the foam;
Little did we think that ever
Far apart we two should roam.

Many merry hours we squandered
Many were the songs we sang,
And when through the house we wandered
How with glee the old rooms rang!
Carmine red your cheeks were glowing,
Sparkling bright your dark brown eyes
Long straight tresses were your crown
—Dear!

Drop blue eyes, and curls had I.
Not one bit alike our faces,
Different dispositions too,
Yet in all life's busy race
We've been friends both real and true.
Forth from memory's fadeless pages
Looks your face at me tonight;
And through all the coming ages
May your path be smooth and bright.

And in dreams we're still together
For your face my sleep doth haunt,
And I often wish you'd never
Settled down in old Vermont.

A. K. M.

LOCKE'S MILLS

Deferred

Mr. and Mrs. James Norton of Portland are guests of relatives.

Mr. and Mrs. Frank Ding were guests of friends at West Paris over the week end.

Mrs. Dannie Bryant and Mrs. Fred Farnum of Bryant's Pond were guests of Mrs. James King, Tuesday.

Mrs. Donald Tebbets was in Bryant's Pond, Tuesday evening.

The new liner California, largest American built liner afloat and the first electrically driven vessel in the merchant marine, arrived at New York Sunday from Newport News.

On the run the Quartermaster stood by his lashed wheel for five hours while the ship was steered by an automatic device. In the boiler room three white-garbed firemen on each watch, presiding over valves and gauges replaced the usual fire room crew of 120 men.

The California, a 23,000 ton ship, will trade between New York and California ports, in the Panama-Pacific Line of the International Mercantile Marine Company.

The birthplace of Lillian Norton, the world famous prima donna, Nordica, who died in 1914, has been purchased by the Nordica Memorial Association, and will be preserved as a shrine to her memory.

She was born Dec. 12, 1857, in the cottage house still standing in Norton woods, two miles from Farmington. The association also acquired 100 acres of land included in the estate.

Life is too short for the consumer to employ detectives to ferret out merchants who have the necessities of life to sell. —Elbert Hubbard.

Double Action
Medicine Stops
Stubborn Coughs

Here is a real medicine long the standard of doctors for coughs and colds. You can count on it to stop the toughest of old die-hard coughs. It's used in the most persistent cases when coughs must be stopped and stopped quick.

It is called Adamson's Balsam. Acts in two ways to end the cough and if it doesn't you can have your money back.

First it breaks up the phlegm, soothes the inflamed membrane and gives the throat muscles a chance to expel the phlegm. That stops your coughing cough, and like a healing poultice it takes the soreness out of the delicate throat lining.

Other elements not found in ordinary sweet sugary syrups go into the system through the blood and attack the germs right at the seat of trouble and in a day or two every trace of danger is gone.

Adamson's Balsam contains no dope, dangerous drugs or chloroform. It's wonderful for children. It certainly stops coughs—Easy once in a dose or two—Hard ones in a day or two. Two sizes, 35c and 75c.

SUNDAY RIVER

Owen Demeritt was at his camp in Bethel a few days last week.

Mrs. J. A. Nowlin is sick with a bad cold. Dr. Tibbitts was called.

Gay Perkins is hauling birch from R. L. Foster's for N. S. Stowell Co.

The roads were plowed out with the new snow plow Monday.

Clad Collins of Upton was a guest of Wm. Powers over Sunday.

Edward Graham of Bangor was elected president, and Frank D. True of Portland chairman of the board of directors at a special meeting of the directors of the Eastern Manufacturing Company, Monday afternoon. This company is a \$13,000,000 paper manufacturing concern, having plants at South Berwick and Lincoln, as well as large timberland rights.

LET THE QUOTA ALONE

The main advantage of the exclusion of Mexico from the quota provisions of the Immigration Law as at present, is that it enables the farming and other industries of the United States to obtain common labor when and as needed.

After the rash for common labor, the Mexican laborer does not become a public charge, but returns to his own country until needed the next season.

This results in a better social and economic condition than if such transient employment involved permanent residents who could not easily find other work.

To understand the common labor situation in this regard, it is necessary to know something of crop production and amount of labor needed during cropping season.

It is estimated that Kansas alone requires 100,000 laborers to harvest the wheat crop; Texas, with its millions of acres of cotton, requires upwards of 400,000 to harvest that crop; California requires upwards of 100,000 to harvest fruit and vegetables; Colorado requires 27,000 to harvest sugar beets.

Oregon, Idaho, Montana, the Dakota and several other central western states including Michigan all require transient laborers during harvest.

The requirements of these states occur about the same season of the year, cotton, sugar beet, wheat, fruit and vegetable crops needing labor about the same time.

Numerous farm organizations, the National Grange, and chambers of commerce throughout the Northwest and Pacific Coast states have asked that our Immigration Law be left as it is. Any other course would seem to be unwise, and would induce economic results the consequences of which would be calamitous.

Constipation
Relieved

Don't allow it to continue. For it surely will lead to some form of sickness. This family remedy will give daily relief and improve digestion.
